

# ***Introductory Western Blot Workshop***

**October 6<sup>th</sup> and 7<sup>th</sup>, 2010**

**MaRS Toronto Medical Discovery Tower**

The Industrial BioDevelopment Laboratory (IBDL), CIHR Training Program in Regenerative Medicine (TPRM), Millipore Canada and Fisher Scientific are pleased to be offering their 1<sup>st</sup> Western Blot Workshop that consists of both lectures and hands-on laboratory training. This workshop is designed for the researcher that has not yet had exposure to western blotting techniques and covers material including:

- What is the purpose of Western Blotting?
- How to choose the right gel and gel concentration
- How to optimize protocol conditions to avoid common blotting problems

Building upon the success of previous technical hands-on workshops this event promises to deliver immediate value to participants through the development of key skills for any researcher conducting protein analysis. Cost of registration for this workshop is \$200 (consumables) however TPRM members (trainee and alumni) may attend for a discounted rate of \$150.

**Space is Limited!**
